INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/AU2004/000069

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	YES
	Claims 1 - 14	NO
Inventive step (IS)	Claims	YES
	Claims 1 - 14	NO
Industrial applicability (IA)	Claims 1 - 14	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

NOVELTY (N) and INVENTIVE STEP (IS) claims 1 - 14

D1 : US 6260636 A

D2 : GB 2294715 A

Both D1 and D2 explicitly disclose all of the features of these claims. For example, D1 discloses an earth boring drill bit including replaceable gage pads. The gage pads and the corresponding surface of the earth boring drill bit include complementary securing elements which mutually engage one another. The gage pad may be removably affixed to the earth boring drill by an affixation element.

Therefore the subject matter of these claims is not new and is obvious and, as such, does not meet the requirements of Articles 33(2) and 33 (3) of the PCT with regard to novelty and inventive step, respectively.

Industrial Applicability (IA)

The invention defined in the claims is considered to meet the requirements of Industrial Applicability under Article 33(4) of the PCT because it can be made by, or used in, industry.
